

Points (1pt Each)	User Story	Criteria (Out of 10)		
1	It is done when I DO NOT edit the HTML or the CSS provided in the starter code.	Delivery	10	Is the assignment on time?
1	It is done when I have called all of my variables at the beginning of the JS file.	Program Specifications/Correctness	10	Are there errors and does it meet specifications?
1	It is done when I establish variables with winning conditions, options, and the current player.	Documentation	10	No errors, and the code is well-commented.
1	It is done when I initialize the game.	Reusability/DRY	10	No errors, code uses the best approach for this program and code doesn't repeat.
1	It is done when I have a function that will update when each cell is clicked if and populates with an X or O.	Score out of 40	40	FINAL GRADE 103%
1	It is done when you can check the winner.	Score (Out of 48)	48	
1	It is done when you are able to reset the game.	ADD EXTRA CREDIT	3	
1	You will adhere to clean coding standards.			
Score out of 8	8			
Comments	Great job and I loved the animation! I also loved the use of emojis and the template literals to used to add the animation. Great job!	Extra Credit Breakdown (Out of 5pts)		
			3	Added an animation for the winner (2pts)
			0	Added a scoring function (3pts)
